

Aruba Instant On AP15 Indoor Access Points

What's new

- Entry-level wireless access points for small and growing businesses at a cost-sensitive price point.
- Comes with an integrated virtual controller for simple deployment of multiple access points.
- Support for WPA2/WPA3 employee and guest login with Enhanced Open for per user guest access.

Overview

Aruba Instant On AP15 Indoor Access Points deliver affordable, premium-grade Wave 2 802.11ac Wi-Fi for medium-density small business environments requiring high performance and bandwidth. Business-grade capabilities are designed to meet the mobile, IoT, and security needs of tech-start-ups and retail stores at an attractive price point.

The compact form factor delivers reliable and affordable multi-user capabilities and an aggregate peak data rate of 2 Gbps to support high-definition video streaming and cloud application requirements. These Aruba Instant On AP15 Indoor Access Points (AP) also come with a built-in controller to simplify deployment, making it easy to install and manage multiple access points without requiring extensive IT experience, additional hardware, or software applications.

The Aruba Instant On AP15 Indoor APs are designed for small business deployments demanding high-traffic, high-performance network

environments like tech-start-ups and co-working spaces.

Features

Fast Connectivity with 802.11ac Wave 2 Access Points that is Simple to Deploy

Aruba Instant On AP15 Indoor Access Points include an easy to use web GUI and templates so access points are up and running in minutes.

802.11ac Wave 2 features include 4x4:4SS

Dual-band wireless (2.4GHz and 5GHz) for combined speeds of up to 2Gbps support high-bandwidth activities such as video, voice, and conferencing solutions.

Aruba Instant On AP15 Indoor Access Points allow for any change to the primary AP configuration to be automatically pushed to every AP in the same cluster.

A secondary AP automatically takes over if the primary AP experiences an outage for always-on Wi-Fi.

Eliminates High Cost of Cabling with Full-Scale Wireless Mesh Coverage

Aruba Instant On AP15 Indoor Access Points feature built-in wireless mesh capabilities to cost-effectively extend Wi-Fi connectivity without additional cables.

Conveniently expands your network to hard-to-wire areas while nearly eliminating rid of spotty connections and dead zones, to provide Wi-Fi where you need it.

Safeguard Sensitive Data with WPA2/WPA3 and Enhanced Open

Aruba Instant On AP15 Indoor Access Points come with integrated Wi-Fi Alliance security standard WPA2/WPA3 and Enhanced Open support for protected wireless access.

Create up to eight different SSIDs under one network name to keep your data safe, whether surfing the web or checking HR data.

Simplicity is the Key to a Great Wi-Fi Experience

The Aruba Instant On AP15 Indoor Access Points are built with premium hardware and software quality that's as reliable and coming from a trusted vendor.

Effortless set-up right out of the box – in the palm of your hand.

The Aruba Instant On portfolio comes with flexible management options to choose from: The Aruba Instant On mobile app guides you through step-by-step from initial set-up to ongoing management.

Simple to build landing page lets you customize your guest access page with your logo, your own brand, and acceptance of use language.

Traffic for any device connecting with guest role is automatically segmented from core business traffic.

Technical specifications**Aruba Instant On AP15 Indoor Access Points**

Certifications	UL 2043 plenum rating EN 60601-1-1 and EN 60601-1-2 (for deployment in medical environments) Wi-Fi Alliance certified (WFA) 802.11ac with Wave 2 (Wi-Fi 5), WPA2, WPA3, Enhanced Open (OWE)
Input voltage	Power over Ethernet (POE): 802.3af (class 3) DC power (12V) Note: Power sources are sold separately
Regulatory	UL2043 plenum rating
Wi-Fi antenna	Integrated downtilt omni-directional antennas with maximum individual antenna gain of 3.6dBi in 2.4GHz and 6.0dBi in 5GHz.
Connectivity, standard	IEEE 802.11ac, 802.11n
Ports	(1) uplink Gigabit Ethernet port, with POE-in support (802.3af)
Radio coverage	Dual Radio for simultaneous dual-band operation 5 GHz 802.11ac 4x4 MIMO for up to 1,733 Mbps wireless data rate, with Multi User MIMO support (Wi-Fi 5) 2.4 GHz 802.11n 2x2 MIMO for up to 300 Mbps wireless data rate (Wi-Fi 4)
Warranty	Aruba Instant On 2 Year warranty with 24X7 phone support for first 90 days and chat support for the entire warranty period. Community support as long as you own the products.
Product dimensions (metric)	41 x 183 x 183 mm
Weight	674 g

HPE Aruba Networking Services

HPE Aruba Networking services simplify and accelerate the network technology lifecycle, enabling your network to scale with better predictability and cost-effectiveness. Whether you operate your own network and need to improve your IT efficiencies, or you want to offload some of the burden, we have the services you need to reach your goals.

Learn more about what HPE Services - Aruba Networking has to offer at: <https://www.hpe.com/edge/services>

Support Services

Our support portfolio provides the essential support elements as well as proactive and preventive features to help you improve your team's productivity and get the most from your network. Our support customers benefit from faster issue resolution, simplified operations and efficiencies, and reduced network issues.

Professional Services

With deep intellectual capital and purpose-built tools, our team delivers a range of standard and custom professional services designed to accelerate your value from HPE Aruba Networking technology.

Project based services include: Annual subscription services include:

- Planning, audit, and assessment
- Architecture review and design
- Deployment, migration, and knowledge transfer
- Network optimization
- Intelligent Operations
- Customer Experience Management

Our [Education Services](#) allow your team to come up to speed quickly.

HPE GreenLake for Networking

Our NaaS solution, is part of the HPE GreenLake services family, and simplifies network operations, accelerates equipment handling, and increases the value of your HPE Aruba Networking solution. If you need expert guidance and automation-based operations for your team, please explore our NaaS approach through HPE GreenLake for Networking.
